# IN HARM'S WAY

PAST  
PRESENT  
& FUTURE

On the fifth anniversary of Superstorm Sandy, join us for a symposium that explores what we have learned about storm preparation, recovery and moving forward. The day will include dialogue and shared experiences from local residents, planners and architects, folklorists and historians. We will share stories and memories of earlier storms, Superstorm Sandy, Irene and Lee, and have in-depth discussions about what the future holds for coastal residents.
